

# EON EXPO 2016

***Earth Ocean Network (EON) is set to launch its first EXPO to celebrate our beautiful and diverse natural environment. The November 5<sup>th</sup>- 6<sup>th</sup> event will run 10-5pm on Saturday and Sunday.***

EON was established in 2010 to support local environmental projects. It raises money by selling second-hand books donated by generous people. All money raised goes back into the community.

All are welcome to the free weekend with a range of entertaining speakers, short films and interactive hubs.

An opportunity for the kids to decorate and record thoughts on beautiful plywood whales, devils, penguins, dolphins and shorebirds designed by our local artist Vanessa Richardson of Waubs Bay Gallery.

Watch Deb Vogel create an exciting community arts project, utilising plastic waste and marine debris in a sculptural piece highlighting the negative impact of plastic on our environment.

Meet the Carter Family who took on the 'Zero Waste' challenge last September. How do they do it?
